(e) Administration and Other Grants

1,363,000

1,363,000

[MENTAL HEALTH GRANTS.] (a) Mental health grants appropriated for the biennium as part of the TEFRA and PCA restructuring proposal shall be distributed to children's mental health collaboratives, or where there is no collaborative, to counties. Grants shall be prorated by county based on the estimated dollar value of services for children and adults with a mental health diagnosis that will be lost due to the changes in Minnesota Statutes, sections 256B.055, subdivision 12, and 256B.0627.

(b) The commissioner shall form a work group to recommend a process for awarding grants that will maximize services purchased and minimize administrative overhead. The task force shall include representatives of the state advisory council on mental health and the children's subcommittee, parents, consumers, advocacy groups, providers, and local social service and public health staff. The work group shall consider whether the process for awarding consumer support grants under Minnesota Statutes, section 256.476, can be utilized for awarding these mental health grants. In addition, the work group shall recommend ways to minimize harm to children and families and to reduce barriers to accessing alternative services.

(c) For the first year of the biennium, funds must be distributed by January 1, 1996, and for the second year, by July 1, 1996. None of this appropriation shall be used for county administration, but must be used to fund direct services to persons found ineligible for TEFRA or PCA services.

[MENTAL HEALTH CASE MANAGEMENT.] Notwithstanding section 12 of this article, this paragraph does not expire. The reimbursement rate for mental health case management services provided by counties under Minnesota Statutes, sections 245.4881 and 256B.0625, for children with severe emotional disturbance is \$45.

[CALCULATION OF FTE's.] When calculating regional treatment center full-time equivalent employees, the commissioner of finance shall make a separate calculation for physicians and their salaries.

[RELOCATIONS FROM FARIBAULT.] Of this appropriation, \$162,000 in fiscal year 1996

and \$37,000 in fiscal year 1997 are for grants to counties for discharge planning related to persons with mental retardation or related conditions being relocated from the Faribault regional center to community services.

[TRANSFERS TO MOOSE LAKE.] Notwithstanding Minnesota Statutes, sections 253B.18, subdivisions 4 and 6, and 253B.185, subdivision 2, with the establishment of the Minnesota sexual psychopathic personality treatment center, the commissioner is authorized to transfer any person committed as a psychopathic personality, sexual psychopathic personality, or sexually dangerous person, between the Minnesota security hospital and the facility at Moose Lake.

[RTC CHEMICAL DEPENDENCY PROGRAMS.] When the operations of the regional treatment center chemical dependency fund created in Minnesota Statutes, section 246.18, subdivision 2, are impeded by projected cash deficiencies resulting from delays in the receipt of grants, dedicated income, or other similar receivables, and when the deficiencies would be corrected within the budget period involved, the commissioner of finance may transfer general fund cash reserves into this account as necessary to meet cash demands. The cash flow transfers must be returned to the general fund in the fiscal year that the transfer was made. Any interest earned on general fund cash flow transfers accrues to the general fund and not the regional treatment center chemical dependency fund.

[RTC RESTRUCTURING.] For purposes of restructuring the regional treatment centers and state nursing homes, any regional treatment center or state nursing home employee whose position is to be eliminated shall be afforded the options provided in applicable collective bargaining agreements. All salary and mitigation allocations from fiscal year 1996 shall be carried forward into fiscal year 1997. Provided there is no conflict with any collective bargaining agreement, any regional treatment center or state nursing home position reduction must only be accomplished through mitigation, attrition, transfer, and other measures as provided in state or applicable collective bargaining agreements and in Minnesota Statutes, section 252.50, subdivision 11, and not through layoff.

[RTC POPULATION.] If the resident population at the regional treatment centers is projected to

be higher than the estimates upon which the medical assistance forecast and budget recommendations for the 1996-97 biennium were based, the amount of the medical assistance appropriation that is attributable to the cost of services that would have been provided as an alternative to regional treatment center services, including resources for community placements and waived services for persons with mental retardation and related conditions, is transferred to the residential facilities appropriation.

~~[INFRASTRUCTURE — REINVESTMENT.] \$750,000 is available from the public facilities authority under Minnesota Statutes 446A.071 for grant funds to a local unit of government for the development of infrastructure and planning for redevelopment in response to the memorandum of understanding for the regional treatment centers. Eligible costs include sewer, water, and easements and engineering costs associated with the project proposal.~~

[CAMP.] Of this appropriation, \$30,000 is from the mental health special projects account for adults and children with mental illness from across the state, for a camping program which utilizes the Boundary Waters Canoe Area and is cooperatively sponsored by client advocacy, mental health treatment, and outdoor recreation agencies.

[IMD DOWNSIZING FLEXIBILITY.] If a county presents a budget-neutral plan for a net reduction in the number of institution for mental disease (IMD) beds funded under group residential housing, the commissioner may transfer the net savings from group residential housing and general assistance medical care to medical assistance and mental health grants to provide appropriate services in non-IMD settings.

[REPAIRS AND BETTERMENTS.] The commissioner may transfer unencumbered appropriation balances between fiscal years for the state residential facilities repairs and betterments account and special equipment.

[PROJECT LABOR.] Wages for project labor may be paid by the commissioner of human services out of repairs and betterments money if the individual is to be engaged in a construction project or a repair project of short term and nonrecurring nature. Compensation for project labor shall be based on the prevailing wage rates, as defined in Minnesota Statutes, section 177.42,

subdivision 6. Project laborers are excluded from the provisions of Minnesota Statutes, sections 43A.22 to 43A.30, and shall not be eligible for state-paid insurance and benefits.

[PLAN FOR ADOLESCENT TREATMENT EXPANSION.] The commissioner shall report to the legislature by January 15, 1996, with a cost-neutral plan to add up to 20 beds to each of the two existing adolescent treatment facilities at the regional treatment centers in order to reduce or eliminate out-of-state placement of adolescents who have serious emotional disturbance and exhibit violent behavior, if they cannot be treated in their own communities. Cost neutrality shall be determined by comparing the costs of program expansion with the projected costs of out-of-state placements.
