Sec. 2. Minnesota Statutes 2006, section 256B.15, subdivision 1i, is amended to read:

Subd. 1i. **Estates of persons receiving medical assistance and survived by others.** (a) For purposes of this subdivision, the person's estate consists of the person's probate estate and all of the person's interests in real property the person owned as a life tenant or a joint tenant at the time of the person's death and the person's legal title or interest at the time of the person's death in real property transferred to a beneficiary under a transfer on death deed under section 507.071, or in the proceeds from the subsequent sale of the person's interest in the transferred real property.

(b) Notwithstanding any law or rule to the contrary, this subdivision applies if a person received medical assistance for which a claim could be filed under this section but for the fact the person was survived by a spouse or by a person listed in subdivision 3, or if subdivision 4 applies to a claim arising under this section.

(c) The person's life estate or joint tenancy interests in real property not subject to a medical assistance lien under sections 514.980 to 514.985 on the date of the person's death shall not end upon death and shall continue as provided in this subdivision. The life estate in the estate shall be the portion of the interest in the property subject to the life estate that is equal to the life estate percentage factor for the life estate as listed in the Life Estate Mortality Table of the health care program's manual for a person who was the age of the medical assistance recipient on the date of the person's death. The joint tenancy interest in the estate shall be equal to the fractional interest the medical assistance recipient would have owned in the jointly held interest in the property had they and the other owners held title to the property as tenants in common on the date the medical assistance recipient died.

(d) The county agency shall file a claim in the estate under this section on behalf of the claimant who shall be the commissioner of human services, notwithstanding that the decedent is survived by a spouse or a person listed in subdivision 3. The claim, as allowed, shall not be paid by the estate and shall be disposed of as provided in this paragraph. The personal representative or the court shall

make, execute, and deliver a lien in favor of the claimant on the decedent's interest in real property in the estate in the amount of the allowed claim on forms provided by the commissioner to the county agency filing the lien. The lien shall bear interest as provided under section 524.3-806, shall attach to the property it describes upon filing or recording, and shall remain a lien on the real property it describes for a period of 20 years from the date it is filed or recorded. The lien shall be a disposition of the claim sufficient to permit the estate to close.

(e) The state or county agency shall file or record the lien in the office of the county recorder or registrar of titles for each county in which any of the real property is located. The recorder or registrar of titles shall accept the lien for filing or recording. All recording or filing fees shall be paid by the Department of Human Services. The recorder or registrar of titles shall mail the recorded lien to the Department of Human Services. The lien need not be attested, certified, or acknowledged as a condition of recording or filing. Upon recording or filing of a lien against a life estate or a joint tenancy interest, the interest subject to the lien shall merge into the remainder interest or the interest the recipient and others owned jointly. The lien shall attach to and run with the property to the extent of the decedent's interest in the property at the time of the decedent's death as determined under this section.

(f) The department shall make no adjustment or recovery under the lien until after the decedent's spouse, if any, has died, and only at a time when the decedent has no surviving child described in subdivision 3. The estate, any owner of an interest in the property which is or may be subject to the lien, or any other interested party, may voluntarily pay off, settle, or otherwise satisfy the claim secured or to be secured by the lien at any time before or after the lien is filed or recorded. Such payoffs, settlements, and satisfactions shall be deemed to be voluntary repayments of past medical assistance payments for the benefit of the deceased recipient, and neither the process of settling the claim, the payment of the claim, or the acceptance of a payment shall constitute an adjustment or recovery that is prohibited under this subdivision.

(g) The lien under this subdivision may be enforced or foreclosed in the manner provided by law for the enforcement of judgment liens against real estate or by a foreclosure by action under chapter 581. When the lien is paid, satisfied, or otherwise discharged, the state or county agency shall prepare and file a release of lien at its own expense. No action to foreclose the lien shall be commenced unless the lien holder has first given 30 days' prior written notice to pay the lien to the owners and parties in possession of the property subject to the lien. The notice shall: (1) include the name, address, and telephone number of the lien holder; (2) describe the lien; (3) give the amount of the lien; (4) inform the owner or party in possession that payment of the lien in full must be made to the lien holder within 30 days after service of the notice or the lien holder may begin proceedings to foreclose the lien; and (5) be served by personal service, certified mail, return receipt requested, ordinary first class mail, or by publishing it once in a newspaper of general circulation in the county in which any part of the property is located. Service of the notice shall be complete upon mailing or publication."

The real property described in the clearance certificate is bound by any conditions or other requirements imposed by the county agency as specified in the clearance certificate. If the real property is registered property, a new certificate of title must not be issued until the clearance certificate is recorded. If the clearance certificate shows the continuation of a medical assistance claim or lien after issuance of the clearance certificate, the real property remains subject to the claim or lien. If the real property is registered property, the clearance certificate must be carried forward as a memorial in any new certificate of title."

Subdivision 1. **Establishment.** The commissioner may award a livestock investment grant to a person who raises livestock in this state equal to ten percent of the first \$500,000 of qualifying expenditures, provided the person makes qualifying expenditures of at least \$4,000. The commissioner may award multiple livestock investment grants to a person over the life of the program as long as the cumulative amount does not exceed \$50,000.

Subd. 2. **Definitions.** (a) For the purposes of this section, the terms defined in this subdivision have the meanings given them.

Qualifying expenditures only include amounts that are allowed to be capitalized and deducted under either section 167 or 179 of the Internal Revenue Code in computing federal taxable income. Qualifying expenditures do not include an amount paid to refinance existing debt.

(d) "Qualifying period" means, for a grant awarded during a fiscal year, that full calendar year of which the first six months precede the first day of the current fiscal year. For example, an eligible person who makes qualifying expenditures during calendar year 2008 is eligible to receive a livestock investment grant between July 1, 2008, and June 30, 2009.

Subd. 3. **Eligibility.** (a) To be eligible for a livestock investment grant, a person must:

The commissioner must place any additional eligible applications on a waiting list and, notwithstanding subdivision 2, paragraph (c), give them priority during the next fiscal year. The commissioner shall notify in writing any applicant who applies for a grant and is ineligible under the provisions of this section as well as any applicant whose application is received or reviewed after the fiscal year funding limit has been reached.

Sec. 2. Minnesota Statutes 2006, section 18B.07, subdivision 2, is amended to read:

**Subd. 2. Prohibited pesticide use.** (a) A person may not use, store, handle, distribute, or dispose of a pesticide, rinsate, pesticide container, or pesticide application equipment in a manner:

(1) that is inconsistent with a label or labeling as defined by FIFRA;

(2) that endangers humans, damages agricultural products, food, livestock, fish, or wildlife; or

(3) that will cause unreasonable adverse effects on the environment.

(b) A person may not direct a pesticide onto property beyond the boundaries of the target site. A person may not apply a pesticide resulting in damage to adjacent property.

(c) A person may not directly apply a pesticide on a human by overspray or target site spray, except when:

(1) the pesticide is intended for use on a human;

(2) the pesticide application is for mosquito control operations;

(3) the pesticide application is for control of gypsy moth, forest tent caterpillar, or other pest species, as determined by the commissioner, and the pesticide used is a biological agent; or

(4) the pesticide application is for a public health risk, as determined by the commissioner of health, and the commissioner of health, in consultation with the commissioner of agriculture, determines that the application is warranted based on the commissioner's balancing of the public

health risk with the risk that the pesticide application poses to the health of the general population, with special attention to the health of children.

(d) For pesticide applications under paragraph (c), clause (2), the following conditions apply:

(1) no practicable and effective alternative method of control exists;

(2) the pesticide is among the least toxic available for control of the target pest; and

(3) notification to residents in the area to be treated is provided at least 24 hours before application through direct notification, posting daily on the treating organization's Web site, if any, and by sending a broadcast e-mail to those persons who request notification of such, of those areas to be treated by adult mosquito control techniques during the next calendar day. For control operations related to human disease, notice under this paragraph may be given less than 24 hours in advance.

(e) For pesticide applications under paragraph (c), clauses (3) and (4), the following conditions apply:

(1) no practicable and effective alternative method of control exists;

(2) the pesticide is among the least toxic available for control of the target pest; and

(3) notification of residents in the area to be treated is provided by direct notification and through publication in a newspaper of general circulation within the affected area.

(f) For purposes of this subdivision, "direct notification" may include mailings, public meetings, posted placards, neighborhood newsletters, or other means of contact designed to reach as many residents as possible. Public meetings held to meet this requirement for adult mosquito control, under paragraph (d), must be held within each city or town where the pesticide treatments are to be made, at a time and location that is convenient for residents of the area where the treatments will occur.

(g) A person may not apply a pesticide in a manner so as to expose a worker in an immediately adjacent, open field.

(h) Notwithstanding that the application is done in a manner consistent with the label or labeling, it is a violation of this chapter to directly apply a pesticide to a site where an application has not been: (1) requested, ordered, contracted for, or permitted; or (2) performed pursuant to paragraph (c), clause (2), (3), or (4).

### **Sec. 3. [18C.125] ANHYDROUS AMMONIA TANKS.**

The commissioner shall adopt rules to implement this section. The rules must impose appropriate safety restrictions and environmental safeguards on the use of anhydrous ammonia. At a minimum, the rules must address water availability; attendance during the anhydrous ammonia transfer operation; emergency shutoff and pull-away safeguards; location of the anhydrous ammonia transfer operation; setback distances from residences, buildings, and roads; and permit requirements.

(b) All tanks under this section must conform to United States Department of Transportation cargo tank specifications in Code of Federal Regulations, title 49, part 173, and must be maintained, tested, and inspected as required in Code of Federal Regulations, title 49, parts 173 and 180. All loading and unloading of the tanks must conform to requirements of Code of Federal Regulations, title 49, parts 173 and 177.

The temporary faculty Veterinary Medical Center clinician license allows the licensee to practice veterinary medicine in the state of Minnesota in the specialty area of the licensee's training and only within the scope of employment at the Veterinary Medical Center while under the direct supervision of a veterinarian currently licensed and actively practicing veterinary medicine in Minnesota, as defined in section 156.04. The direct supervising veterinarian must not have any current or past conditions, restrictions, or probationary status imposed on the veterinarian's license by the board within the past five years. The holder of a temporary faculty Veterinary Medical Center clinician license who is enrolled in a PhD program may apply for up to two additional consecutive two-year extensions of an expiring temporary faculty Veterinary Medical Center clinician license. Any other holder of a temporary faculty Veterinary Medical Center clinician license may apply for one two-year extension of the expiring temporary faculty Veterinary Medical Center clinician license. Temporary faculty Veterinary Medical Center clinician licenses that are allowed to expire may not be renewed. The board shall grant an extension to a licensee who demonstrates suitable progress toward completing the requirements of their academic program, specialty board certification, or full licensure in Minnesota by a graduate of a foreign veterinary college.

(d) Temporary and specialty faculty Veterinary Medical Center clinician licensees must abide by all the laws governing the practice of veterinary medicine in the state of Minnesota and are subject to the same disciplinary action as any other veterinarian licensed in the state of Minnesota.

(e) The fee for a license issued under this subdivision is the same as for a regular license to practice veterinary medicine in Minnesota. License payment deadlines, late payment fees, and other license requirements are also the same as for regular licenses.

Sec. 35. Minnesota Statutes 2006, section 156.15, subdivision 2, is amended to read:

Subd. 2. **Service.** Service of an order under this section is effective if the order is served on the person or counsel of record personally or by ~~certified~~ United States mail to the most recent address provided to the board for the person or counsel of record.

Sec. 36. Minnesota Statutes 2006, section 156.16, subdivision 3, is amended to read:

Subd. 3. **Dispensing.** "Dispensing" means distribution of veterinary prescription drugs or over-the-counter drugs, human drugs for extra-label use, for extra-label use by a person licensed as a pharmacist by the Board of Pharmacy or a person licensed by the Board of Veterinary Medicine.

Sec. 37. Minnesota Statutes 2006, section 156.16, subdivision 10, is amended to read:

Subd. 10. **Prescription.** "Prescription" means an order from a veterinarian to a pharmacist or another veterinarian authorizing the dispensing of a veterinary prescription ~~drug~~ drugs, human drugs for extra-label use, or over-the-counter drugs for extra-label use to a client for use on or in a patient.

Sec. 38. Minnesota Statutes 2006, section 156.18, subdivision 1, is amended to read:

Subdivision 1. **Prescription.** (a) A person may not dispense a veterinary prescription drug to a client without a prescription or other veterinary authorization. A person may not make extra-label use of an animal or human drug for an animal without a prescription from a veterinarian. A veterinarian or the veterinarian's authorized employee may dispense a veterinary prescription ~~drug~~ to drugs, human drugs for extra-label use, or an over-the-counter drug for extra-label use by a client ~~or oversee the extra-label use of a veterinary drug directly by a client~~ without a separate written prescription, providing there is documentation of the prescription in the medical record and there is an existing veterinarian-client-patient relationship. The prescribing veterinarian must monitor the use of veterinary prescription drugs, human drugs for extra-label use, or over-the-counter drugs for extra-label use by a client.

(b) A veterinarian may dispense prescription veterinary drugs and prescribe and dispense extra-label use drugs to a client without personally examining the animal if a bona fide veterinarian-client-patient relationship exists and in the judgment of the veterinarian the client has sufficient knowledge to use the drugs properly.

(c) A veterinarian may issue a prescription or other veterinary authorization by oral or written communication to the dispenser, or by computer connection. If the communication is oral, the veterinarian must enter it into the patient's record. The dispenser must record the veterinarian's prescription or other veterinary authorization within 72 hours.

(d) A prescription or other veterinary authorization must include:

(1) the name, address, and, if written, the signature of the prescriber;

- (2) the name and address of the client;
- (3) identification of the species for which the drug is prescribed or ordered;
- (4) the name, strength, and quantity of the drug;
- (5) the date of issue;
- (6) directions for use; ~~and~~
- (7) withdrawal time~~;~~
- (8) expiration date of prescription; and
- (9) number of authorized refills.

(e) A veterinarian may, in the course of professional practice and an existing veterinarian-client-patient relationship, prepare medicaments that combine drugs approved by the United States Food and Drug Administration and other legally obtained ingredients with appropriate vehicles.

(f) A veterinarian or a bona fide employee of a veterinarian may dispense veterinary prescription drugs to a person on the basis of a prescription issued by a licensed veterinarian. The provisions of paragraphs (c) and (d) apply.

(g) This section does not limit the authority of the Minnesota Racing Commission to regulate veterinarians providing services at a licensed racetrack.

Sec. 39. Minnesota Statutes 2006, section 156.18, subdivision 2, is amended to read:

Subd. 2. **Label of dispensed veterinary drugs.** (a) A veterinarian or the veterinarian's authorized agent or employee dispensing a veterinary prescription drug ~~or prescribing the extra-label use of an over-the-counter drug, an over-the-counter drug for extra-label use, or a human drug for extra-label use~~ must provide written information which includes the name and address of the veterinarian, date of filling, species of patient, name or names of drug, strength of drug or drugs, directions for use, withdrawal time, and cautionary statements, if any, appropriate for the drug.

(b) If the veterinary drug has been prepared, mixed, formulated, or packaged by the dispenser, all of the information required in paragraph (a) must be provided on a label affixed to the container.

(c) If the veterinary drug is in the manufacturer's original package, the information required in paragraph (a) must be supplied in writing but need not be affixed to the container. Information required in paragraph (a) that is provided by the manufacturer on the original package does not need to be repeated in the separate written information. Written information required by this paragraph may be written on the sales invoice.

Sec. 40. Minnesota Statutes 2006, section 156.19, is amended to read:

**156.19 EXTRA-LABEL USE.**

A person, other than a veterinarian or ~~a person working under the control~~ an employee of a veterinarian, must not make extra-label use of a veterinary drug in or on a food-producing animal, unless permitted by the prescription of a veterinarian. A veterinarian may prescribe the extra-label

use of a ~~veterinary~~ drug if:

(1) the veterinarian makes a careful medical diagnosis within the context of a valid veterinarian-client-patient relationship;

(2) the veterinarian determines that there is no marketed drug specifically labeled to treat the condition diagnosed, or that drug therapy as recommended by the labeling has, in the judgment of the attending veterinarian, been found to be clinically ineffective;

(3) the veterinarian recommends procedures to ensure that the identity of the treated animal will be carefully maintained; ~~and~~

(4) the veterinarian prescribes a significantly extended time period for drug withdrawal before marketing meat, milk, or eggs; and

(5) the veterinarian has met the criteria established in Code of Federal Regulations, title 21, part 530, which define the extra-label use of medication in or on animals.

Sec. 41. Minnesota Statutes 2006, section 239.77, as amended by Laws 2007, chapter 62, sections 3 and 4, is amended to read:

**239.77 BIODIESEL CONTENT MANDATE.**

Subdivision 1. **Biodiesel fuel.** "Biodiesel fuel" means a renewable, biodegradable, mono alkyl ester combustible liquid fuel that is derived from agricultural and other plant oils or animal fats and that meets American Society For Testing and Materials specification D6751-07 for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

Biodiesel produced from palm oil is not biodiesel fuel for the purposes of this section, unless the palm oil is contained within waste oil and grease collected within the United States or Canada.

Subd. 2. **Minimum content.** (a) Except as otherwise provided in this section, all diesel fuel sold or offered for sale in Minnesota for use in internal combustion engines must contain at least ~~2.0 percent~~ the stated percentage of biodiesel fuel oil by volume- on and after the following dates:

(1)	<u>September 29, 2005</u>	<u>2 percent</u>
(2)	<u>May 1, 2009</u>	<u>5 percent</u>
(3)	<u>May 1, 2012</u>	<u>10 percent</u>
(4)	<u>May 1, 2015</u>	<u>20 percent</u>

The minimum content levels in clauses (3) and (4) are effective during the months of April, May, June, July, August, September, and October only. The minimum content for the remainder of the year is five percent. However, if the commissioners of agriculture, commerce, and pollution control determine, after consultation with the biodiesel task force and other technical experts, that an American Society for Testing and Materials specification or equivalent federal standard exists for the specified biodiesel blend level in those clauses that adequately addresses technical issues associated with Minnesota's cold weather and publish a notice in the State Register to that effect, the commissioners may allow the specified biodiesel blend level in those clauses to be effective year-round.

(b) The minimum content levels in paragraph (a), clauses (3) and (4), become effective on the date specified only if the commissioners of agriculture, commerce, and pollution control publish notice in the State Register and provide written notice to the chairs of the house and senate committees with jurisdiction over agriculture, commerce, and transportation policy and finance, at least 270 days prior to the date of each scheduled increase, that all of the following conditions have been met and the state is prepared to move to the next scheduled minimum content level:

(1) an American Society for Testing and Materials specification or equivalent federal standard exists for the next minimum diesel-biodiesel blend;

(2) a sufficient supply of biodiesel is available and the amount of biodiesel produced in this state from feedstock with at least 75 percent that is produced in the United States and Canada is equal to at least 50 percent of anticipated demand at the next minimum content level;

(3) adequate blending infrastructure and regulatory protocol are in place in order to promote biodiesel quality and avoid any potential economic disruption; and

(4) at least five percent of the amount of biodiesel necessary for that minimum content level will be produced from a biological resource other than an agricultural resource traditionally grown or raised in the state, including, but not limited to, algae cultivated for biofuels production, waste oils, and tallow.

The condition in clause (4) may be waived if the commissioners find that the use of these nontraditional feedstocks would be uneconomic under market conditions existing at the time notice is given under this paragraph.

(c) The commissioners of agriculture, commerce, and pollution control must consult with the biodiesel task force when assessing and certifying conditions in paragraph (b), and in general must seek the guidance of the biodiesel task force regarding biodiesel labeling, enforcement, and other related issues.

(d) During a period of biodiesel fuel shortage or a problem with biodiesel quality that negatively affects the availability of biodiesel fuel, the commissioner of commerce may temporarily suspend the minimum content requirement in subdivision 2 until there is sufficient biodiesel fuel, as defined in subdivision 1, available to fulfill the minimum content requirement.

(e) By February 1, 2012, and periodically thereafter, the commissioner of commerce shall determine the wholesale diesel price at various pipeline and refinery terminals in the region, and the biodiesel price determined after credits and incentives are subtracted at biodiesel plants in the region. The commissioner shall report wholesale price differences to the governor who, after consultation with the commissioners of commerce and agriculture, may by executive order adjust the biodiesel mandate if a price disparity reported by the commissioner will cause economic hardship to retailers of diesel fuel in this state. Any adjustment must be for a specified period of time, after which the percentage of biodiesel fuel to be blended into diesel fuel returns to the amount required in subdivision 2. The biodiesel mandate must not be adjusted to less than five percent.

Subd. 3. **Exceptions.** (a) The minimum content ~~requirement~~ requirements of subdivision 2 ~~does~~ do not apply to fuel used in the following equipment:

(1) motors located at an electric generating plant regulated by the Nuclear Regulatory Commission;

(2) railroad locomotives; and

(3) off-road taconite and copper mining equipment and machinery.

(b) The exemption in paragraph (a), clause (1), expires 30 days after the Nuclear Regulatory Commission has approved the use of biodiesel fuel in motors at electric generating plants under its regulation.

Subd. 4. **Disclosure.** A refinery or terminal shall provide, at the time diesel fuel is sold or transferred from the refinery or terminal, a bill of lading or shipping manifest to the person who receives the fuel. For biodiesel-blended products, the bill of lading or shipping manifest must disclose biodiesel content, stating volume percentage, gallons of biodiesel per gallons of petroleum diesel base-stock, or an ASTM "Bxx" designation where "xx" denotes the volume percent biodiesel included in the blended product. This subdivision does not apply to sales or transfers of biodiesel blend stock between refineries, between terminals, or between a refinery and a terminal.

Subd. 5. **Annual report.** Beginning in 2009, the commissioner of agriculture must report by January 15 of each year to the chairs and ranking minority members of the legislative committees and divisions with jurisdiction over agriculture policy and finance regarding the implementation of the minimum content requirements in subdivision 2, including information about the price and supply of biodiesel fuel. The report shall include information about the impacts of the biodiesel mandate on the development of biodiesel production capacity in the state, and on the use of feedstock grown or raised in the state for biodiesel production. The report must include any written comments received from members of the biodiesel fuel task force by January 1 of that year designated by them for inclusion in the report.

Sec. 42. Minnesota Statutes 2007 Supplement, section 296A.01, subdivision 8a, is amended to read:

Subd. 8a. **Biodiesel fuel.** ~~"Biodiesel fuel" means a renewable, biodegradable, mono-alkyl ester combustible liquid fuel derived from agricultural plant oils or animal fats and that meets American Society for Testing and Materials specification D6751-07 for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels~~ has the meaning given in section 239.77, subdivision 1.

#### **394.23 COMPREHENSIVE PLAN.**

The board has the power and authority to prepare and adopt by ordinance, a comprehensive plan. A comprehensive plan or plans when adopted by ordinance must be the basis for official controls adopted under the provisions of sections 394.21 to 394.37. The commissioner of natural resources must provide the natural heritage data from the county biological survey, if available, to each county for use in the comprehensive plan. When adopting or updating the comprehensive plan, the board must, if the data is available to the county, consider natural heritage data resulting from the county biological survey. The board must consider adopting goals and objectives that will protect open space and the environment.

Sec. 44. [394.231] COMPREHENSIVE PLANS IN GREATER MINNESOTA; OPEN SPACE.

A county adopting or updating a comprehensive plan in a county outside the metropolitan area

as defined by section 473.121, subdivision 2, shall consider adopting goals and objectives for the preservation of agricultural, forest, wildlife, and open space land, and minimizing development in sensitive shoreland areas. Within three years of updating the comprehensive plan, the county shall consider adopting ordinances as part of the county's official controls that encourage the implementation of the goals and objectives. The county shall consider the following goals and objectives:

(1) minimizing the fragmentation and development of agricultural, forest, wildlife, and open space lands, including consideration of appropriate minimum lot sizes;

(2) minimizing further development in sensitive shoreland areas;

(3) minimizing development near wildlife management areas, scientific and natural areas, and nature centers;

(5) encouraging development close to places of employment, shopping centers, schools, mass transit, and other public and private service centers;

(6) identification of areas where other developments are appropriate; and

(7) other goals and objectives a county may identify.

Sec. 45. Minnesota Statutes 2006, section 394.232, subdivision 6, is amended to read:

Subd. 6. **Plan update.** The county board, or the board of the joint planning district, shall review and update the community-based comprehensive plan periodically, but at least every ten years, and submit the updated plan to the office of strategic and long-range planning for review and comment. When updating the plan, the county board or the board of the joint planning district must consider natural heritage data resulting from the county biological survey. The board must consider adopting goals and objectives that will protect open space and the environment.

Sec. 46. Minnesota Statutes 2006, section 462.355, subdivision 1, is amended to read:

Subdivision 1. **Preparation and review.** The planning agency shall prepare the comprehensive municipal plan. In discharging this duty the planning agency shall consult with and coordinate the planning activities of other departments and agencies of the municipality to insure conformity with and to assist in the development of the comprehensive municipal plan. In its planning activities the planning agency shall take due cognizance of the planning activities of adjacent units of government and other affected public agencies. The planning agency shall periodically review the plan and recommend amendments whenever necessary. When preparing or recommending amendments to the comprehensive plan, the planning agency must consider adopting goals and objectives that will protect open space and the environment.

Grants may be made for one year. Notwithstanding Minnesota Statutes, section 16A.28, the appropriations encumbered under contract on or before June 30, 2009, for Minnesota grown grants in this paragraph are available until June 30, 2011. \$50,000 of the appropriation in each year is for efforts that identify

and promote Minnesota grown products in retail food establishments including but not limited to restaurants, grocery stores, and convenience stores. The balance in the Minnesota grown matching account in the agricultural fund is canceled to the Minnesota grown account in the agricultural fund and the Minnesota grown matching account is abolished.

\$160,000 the first year and \$160,000 the second year are for grants to farmers for demonstration projects involving sustainable agriculture as authorized in Minnesota Statutes, section 17.116. Of the amount for grants, up to \$20,000 may be used for dissemination of information about the demonstration projects. Notwithstanding Minnesota Statutes, section 16A.28, the appropriations encumbered under contract on or before June 30, 2009, for sustainable agriculture grants in this paragraph are available until June 30, 2011.

\$100,000 the first year and \$100,000 the second year are to provide training and technical assistance to county and town officials relating to livestock siting issues and local zoning and land use planning, including a checklist template that would clarify the federal, state, and local government requirements for consideration of an animal agriculture modernization or expansion project. In developing the training and technical assistance program, the commissioner shall seek guidance, advice, and support of livestock producer organizations, general agricultural organizations, local government associations, academic institutions, other government agencies, and others with expertise in land use and agriculture.

\$103,000 the first year and \$106,000 the second year are for additional integrated pest management activities.

\$2,500,000 the first year is for the agricultural

best management practices loan program. At least \$2,000,000 is available for pass-through to local governments and lenders for low-interest loans and is available until spent. Any unencumbered balance that is not used for pass-through to local governments does not cancel at the end of the first year and is available for the second year.

\$1,000,000 the first year is for the agricultural best management practices loan program for capital equipment loans for persons using native, perennial cropping systems for energy or seed production. This appropriation is available until spent. \* **(The preceding text beginning "\$1,000,000 the first year" was indicated as vetoed by the governor.)**

\$100,000 the first year and \$100,000 the second year are for annual cost-share payments to resident farmers or persons who sell, process, or package agricultural products in this state for the costs of organic certification. Annual cost-share payments per farmer must be two-thirds of the cost of the certification or \$350, whichever is less. In any year that a resident farmer or person who sells, processes, or packages agricultural products in this state receives a federal organic certification cost-share payment, that resident farmer or person is not eligible for state cost-share payments. A certified farmer is eligible to receive annual certification cost-share payments for up to five years. \$15,000 each year is for organic market and program development. The commissioner may allocate any excess appropriation in either fiscal year for organic producer education efforts, assistance for persons transitioning from conventional to organic agriculture, or sustainable agriculture demonstration grants authorized under Minnesota Statutes, section 17.116, and pertaining to organic research or demonstration. Any unencumbered balance does not cancel at the end of the first year and is available for the second year.

If the total amount for which all producers are eligible in a quarter exceeds the amount available for payments, the commissioner shall make payments on a pro rata basis. If the appropriation exceeds the total amount for which all producers are eligible in a fiscal year for scheduled payments and for deficiencies in payments during previous fiscal years, the balance in the appropriation is available to the commissioner for value-added agricultural programs including the value-added agricultural product processing and marketing grant program under Minnesota Statutes, section 17.101, subdivision 5. For the purposes of this paragraph, "bioenergy" includes transportation fuels derived from cellulosic material as well as the generation of energy for commercial heat, industrial process heat, or electrical power from cellulosic material via gasification or other processes. The board must give priority to a bioenergy facility that is at least 60 percent owned and controlled by

farmers, as defined in Minnesota Statutes, section 500.24, subdivision 2, paragraph (n), or natural persons residing in the county or counties contiguous to where the facility is located. Grants are limited to 50 percent of the cost of research, technical assistance, or equipment related to bioenergy production or \$500,000, whichever is less. Grants to nongovernmental entities for the development of business plans and structures related to community ownership of eligible bioenergy facilities together may not exceed \$150,000. Reservation in St. Louis and Koochiching Counties. The grant shall be used by the Bois Forte Band to conduct a detailed feasibility study of the economic and technical viability of developing a multistream renewable energy biofuels demonstration facility on Bois Forte Reservation land to utilize existing forest resources, woody biomass, and cellulosic material to produce biofuels or bioenergy. The grant recipient must actively participate in the Agricultural Utilization Research Institute's Renewable Energy Roundtable and no later than February 1, 2009, must report to the house and senate committees with jurisdiction over agriculture finance. This is a onetime appropriation and is available until spent.

\$300,000 the first year is for a grant to the White Earth Band of Chippewa for a feasibility study of a renewable energy biofuels production, research, and production facility on the White Earth Reservation in Mahnomen County. process to convert primarily cellulosic material, but may also use plastics and other components from municipal solid waste, as feedstock for the production of methanol for use in biodiesel production facilities. Any unencumbered balance in fiscal year 2008 does not cancel but is available for fiscal year 2009. Notwithstanding Minnesota Statutes, section 16A.285, the agency must not transfer this appropriation. The grant recipient must actively participate in the Agricultural Utilization Research Institute's Renewable Energy Roundtable and no later than February 1, 2009, must report to the house and senate committees with jurisdiction over agriculture finance. Chisago County may expend funds to Isanti and Pine Counties and the University of Minnesota for any costs incurred as part of the study. The feasibility study must consider the capacity of: (1) the seed bank at Wild River State Park to expand the existing prairie grass, woody biomass, and cellulosic material resources in Chisago, Isanti, and Pine Counties; (2) willing and interested landowners in Chisago, Isanti, and Pine Counties to grow cellulosic materials; and (3) the Minnesota Conservation Corps, the sentence to serve program, and other existing workforce programs in east central Minnesota to contribute labor to these efforts. The grant recipient must actively participate in the Agricultural Utilization Research Institute's Renewable Energy Roundtable and no later than February 1, 2009, must report to the house and senate committees with

**Sec. 53. PROPOSAL; PETROLEUM INSPECTION FEE REVENUE.**

The commissioners of finance, commerce, and pollution control must develop and submit to the legislature as part of their next biennial budget request a proposal for eliminating, to the extent feasible, redundant fuel inspections and dedicating, to the extent feasible, all revenue from the petroleum inspection fee levied on petroleum products under Minnesota Statutes, section 239.101, subdivision 3, to the Weights and Measures Division of the Department of Commerce. All additional funding appropriated to the Weights and Measures Division under this proposal must be used for increased and enhanced fuel quality assurance enforcement activities and equipment and for educational activities focused on the handling, distribution, and use of biodiesel fuel.

**Sec. 54. TECHNICAL COLD WEATHER ISSUES.**

The commissioners of agriculture and commerce shall consult with stakeholders who are technical experts in cold weather biodiesel and petroleum diesel issues to consider and make recommendations regarding improvements in the production, blending, handling, and distribution of biodiesel blends to further ensure the performance of these fuels in cold weather. The commissioners shall issue a report on these issues by January 15, 2009, to the chairs and ranking minority members of the legislature with jurisdiction over agriculture and commerce policy and finance.

**Sec. 55. BIOBASED DIESEL ALTERNATIVES.**

(a) The amount appropriated in 2008 H.F. No. 1812, if enacted, to the Department of Commerce for sustainability standards is for a grant to study how a Minnesota-appropriate low-carbon fuel standard could be designed to take advantage of Minnesota's biofuel policies, and provide maximum benefits to Minnesota's consumers, workers, farmers, and businesses while ensuring the continued viability of the state's current biofuel industry. At a minimum, the study shall analyze a performance-based low-carbon fuel standard that measures the progress in reducing greenhouse gas emissions on a full lifecycle basis and include an analysis of:

(1) basing the initial increment for carbon reduction based on the state's plans for 20 percent ethanol by 2013 and 20 percent biodiesel by 2015 and testing a number of assumptions about reducing fossil fuel inputs in the production of those fuels during this time frame;

(2) basing the next increment of carbon reduction on assumptions and policies about the commercialization and penetration of biomass-based fuels using various nontraditional feedstocks, including algae and perennial grasses, electricity, hydrogen, compressed natural gas, and other innovative fuel strategies;

(3) the impact the low-carbon fuel standard might have on Minnesota consumers of transportation fuels generally and on the competitiveness of the state's current ethanol and biodiesel industries;

(4) recommendations to increase the environmental and economic sustainability of the production of transportation fuels, including land and water conservation implications and rural economic development; and

(5) an outline of the steps necessary to implement a Minnesota-appropriate low-carbon fuel standard.

(b) The commissioner shall present the study and any recommendations to the NextGen Energy Board, the Biodiesel Board, and the chairs and ranking minority members of the Environment, Agriculture, Transportation, and Energy Policy and Finance Committees by February 1, 2009, including any proposed legislation necessary to implement the recommendations.

blending infrastructure grants to facilities that serve Minnesota.

**Sec. 58. RENEWABLE DEVELOPMENT FUND 2007 APPROPRIATION MODIFICATION.**
