Subd. 4. **Duties of commissioner.** The commissioner of human services shall:

(1) provide practice guidance to responsible social services agencies and licensed child-placing agencies that reflect federal and state laws and policy direction on placement of children;

(2) develop criteria for determining whether a prospective adoptive or foster family has the ability to understand and validate the child's cultural background;

(3) provide a standardized training curriculum for adoption and foster care workers and administrators who work with children. Training must address the following objectives:

(i) developing and maintaining sensitivity to all cultures;

(ii) assessing values and their cultural implications;

(iii) making individualized placement decisions that advance the best interests of a particular child under section 260C.212, subdivision 2; and

(iv) issues related to cross-cultural placement;

(4) provide a training curriculum for all prospective adoptive and foster families that prepares them to care for the needs of adoptive and foster children taking into consideration the needs of children outlined in section 260C.212, subdivision 2, paragraph (b), and, as necessary, preparation is continued after placement of the child and includes the knowledge and skills related to reasonable

and prudent parenting standards for the participation of the child in age or developmentally appropriate activities, according to section 260C.212, subdivision 14;

(5) develop and provide to responsible social services agencies and licensed child-placing agencies a home study format to assess the capacities and needs of prospective adoptive and foster families. The format must address problem-solving skills; parenting skills; evaluate the degree to which the prospective family has the ability to understand and validate the child's cultural background, and other issues needed to provide sufficient information for agencies to make an individualized placement decision consistent with section 260C.212, subdivision 2. For a study of a prospective foster parent, the format must also address the capacity of the prospective foster parent to provide a safe, healthy, smoke-free home environment. If a prospective adoptive parent has also been a foster parent, any update necessary to a home study for the purpose of adoption may be completed by the licensing authority responsible for the foster parent's license. If a prospective adoptive parent with an approved adoptive home study also applies for a foster care license, the license application may be made with the same agency which provided the adoptive home study; ~~and~~

(6) consult with representatives reflecting diverse populations from the councils established under sections 3.922 and 15.0145, and other state, local, and community organizations; and

(7) establish family foster setting licensing guidelines for county agencies and private agencies designated or licensed by the commissioner to perform licensing functions and activities under section 245A.04. Guidelines that the commissioner establishes under this paragraph shall be considered directives of the commissioner under section 245A.16.

EFFECTIVE DATE. This section is effective July 1, 2023.

Sec. 15. **CHILD FOSTER CARE LICENSING GUIDELINES.**

By July 1, 2023, the commissioner of human services shall, in consultation with stakeholders with expertise in child protection and children's behavioral health, develop family foster setting licensing guidelines for county agencies and private agencies that perform licensing functions. Stakeholders include but are not limited to child advocates, representatives from community organizations, representatives of the state ethnic councils, the ombudsperson for families, family foster setting providers, youth who have experienced family foster setting placements, county child protection staff, and representatives of county and private licensing agencies."

"Sec. 7. Minnesota Statutes 2020, section 245C.32, subdivision 1a, is amended to read:

Subd. 1a. **NETStudy 2.0 system.** (a) The commissioner shall design, develop, and test the NETStudy 2.0 system and implement it no later than September 1, 2015.

(b) The NETStudy 2.0 system developed and implemented by the commissioner shall incorporate and meet all applicable data security standards and policies required by the Federal Bureau of Investigation (FBI), Department of Public Safety, Bureau of Criminal Apprehension, and the Office of MN.IT Services. The system shall meet all required standards for encryption of data at the database level as well as encryption of data that travels electronically among agencies initiating background studies, ~~the commissioner's~~ authorized fingerprint collection ~~vendor~~ vendors, the commissioner, the Bureau of Criminal Apprehension, and in cases involving national criminal record checks, the FBI.

(c) The data system developed and implemented by the commissioner shall incorporate a system of data security that allows the commissioner to control access to the data field level by the commissioner's employees. The commissioner shall establish that employees have access to the minimum amount of private data on any individual as is necessary to perform their duties under this chapter.

(d) The commissioner shall oversee regular quality and compliance audits of ~~the~~ authorized fingerprint collection ~~vendor~~ vendors.

Sec. 8. Minnesota Statutes 2020, section 245C.32, subdivision 1b, is amended to read:

Subd. 1b. **Civil remedies.** When accessing private data on individuals through NETStudy 2.0, entities that are authorized to initiate background studies and ~~the commissioner's~~ authorized fingerprint collection vendors shall be subject to all responsibilities and civil remedies applicable to a responsible authority or government entity as specified under section 13.08.

Sec. 9. DIRECTION TO COMMISSIONER OF HUMAN SERVICES; ON-SITE BACKGROUND STUDY FINGERPRINTING.

(a) The commissioner of human services shall contract with a qualified contractor to conduct on-site fingerprinting beginning August 1, 2021, at locations of employers with 50 or more staff with outstanding background studies, including studies that have been delayed pursuant to the commissioner's modifications to background study requirements issued in response to the COVID-19 outbreak. The commissioner shall develop a list of employers with 50 or more staff who need fingerprints taken in order to complete a background study. The commissioner and the contractor shall coordinate to develop a plan to identify which employer locations the contractor shall serve and inform those employers and staff of the timing and nature of the contractor's services.

(b) The commissioner may contract with the qualified contractor to provide services under paragraph (a) up to the date of the expiration of the modification in CV23: modifying certain background study requirements, issued by the commissioner of human services pursuant to Executive Orders 20-11 and 20-12.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 10. APPROPRIATION; ON-SITE BACKGROUND STUDY FINGERPRINTING CONTRACT.

(a) \$..... is appropriated in fiscal year 2022 from the general fund to the commissioner of human services for a qualified contractor to conduct on-site background study fingerprinting to address the background study backlog under section 4. This is a onetime appropriation.

(b) The appropriation in Minnesota Statutes, section 4.07, subdivision 3, does not apply to any federal funds from the American Rescue Plan Act of 2021, received by the state of Minnesota between the effective date of this section and June 30, 2021, for which the general fund appropriation in paragraph (a) is an eligible expenditure. Federal funding for which this section applies shall not be used for any other purpose, unless the amount of the federal funding exceeds the amount of the eligible general fund appropriation.

(c) If the state of Minnesota receives federal funds from the American Rescue Plan Act of 2021 between the effective date of this section and June 30, 2021, for which any general fund appropriation enacted in paragraph (a) is an eligible expenditure, the commissioner must cancel the general fund appropriation in paragraph (a) in an amount up to, but not greater than, the amount appropriated in paragraph (a). The commissioner may designate a portion of an appropriation for cancellation if the federal funds are not sufficient to replace the entire general fund appropriation.

(d) Each amount canceled under paragraph (c) is appropriated from the federal fund for the original purposes of the general fund appropriation in paragraph (a). This appropriation may be used for expenses retroactive to the effective date of this section. Any appropriation under this paragraph is a onetime appropriation.

(e) Paragraphs (b) to (d) do not apply to federal funds after the eligible general fund appropriation in paragraph (a) has been canceled, and federal funds have been appropriated for the same purpose.

EFFECTIVE DATE. This section is effective the day following final enactment."

"Sec. 2. Minnesota Statutes 2020, section 256.01, subdivision 14b, is amended to read:

Subd. 14b. **American Indian child welfare projects.** (a) The commissioner of human services may authorize projects to initiate tribal delivery of child welfare services to American Indian children and their parents and custodians living on the reservation. The commissioner has authority to solicit and determine which tribes may participate in a project. Grants may be issued to Minnesota Indian tribes to support the projects. The commissioner may waive existing state rules as needed to accomplish the projects. The commissioner may authorize projects to use alternative methods of (1) screening, investigating, and assessing reports of child maltreatment, and (2) administrative reconsideration, administrative appeal, and judicial appeal of maltreatment determinations, provided the alternative methods used by the projects comply with the provisions of section 256.045 and chapter 260E that deal with the rights of individuals who are the subjects of reports or investigations, including notice and appeal rights and data practices requirements. The commissioner shall only authorize alternative methods that comply with the public policy under section 260E.01. The commissioner may seek any federal approval necessary to carry out the projects as well as seek and use any funds available to the commissioner, including use of federal funds, foundation funds, existing grant funds, and other funds. The commissioner is authorized to advance state funds as

necessary to operate the projects. Federal reimbursement applicable to the projects is appropriated to the commissioner for the purposes of the projects. The projects must be required to address responsibility for safety, permanency, and well-being of children.

(b) For the purposes of this section, "American Indian child" means a person under 21 years old and who is a tribal member or eligible for membership in one of the tribes chosen for a project under this subdivision and who is residing on the reservation of that tribe.

(c) In order to qualify for an American Indian child welfare project, a tribe must:

(1) be one of the existing tribes with reservation land in Minnesota;

(2) have a tribal court with jurisdiction over child custody proceedings;

(3) have a substantial number of children for whom determinations of maltreatment have occurred;

(4)(i) have capacity to respond to reports of abuse and neglect under chapter 260E; or (ii) have codified the tribe's screening, investigation, and assessment of reports of child maltreatment procedures, if authorized to use an alternative method by the commissioner under paragraph (a);

(5) provide a wide range of services to families in need of child welfare services; ~~and~~

(6) have a tribal-state title IV-E agreement in effect; and

(7) enter into host tribal contracts pursuant to section 256.0112, subdivision 6.

(d) Grants awarded under this section may be used for the nonfederal costs of providing child welfare services to American Indian children on the tribe's reservation, including costs associated with:

(1) assessment and prevention of child abuse and neglect;

(2) family preservation;

(3) facilitative, supportive, and reunification services;

(4) out-of-home placement for children removed from the home for child protective purposes; and

(5) other activities and services approved by the commissioner that further the goals of providing safety, permanency, and well-being of American Indian children.

(e) When a tribe has initiated a project and has been approved by the commissioner to assume child welfare responsibilities for American Indian children of that tribe under this section, the affected county social service agency is relieved of responsibility for responding to reports of abuse and neglect under chapter 260E for those children during the time within which the tribal project is in effect and funded. The commissioner shall work with tribes and affected counties to develop procedures for data collection, evaluation, and clarification of ongoing role and financial responsibilities of the county and tribe for child welfare services prior to initiation of the project.

Children who have not been identified by the tribe as participating in the project shall remain the responsibility of the county. Nothing in this section shall alter responsibilities of the county for law enforcement or court services.

(f) Participating tribes may conduct children's mental health screenings under section 245.4874, subdivision 1, paragraph (a), clause (12), for children who are eligible for the initiative and living on the reservation and who meet one of the following criteria:

- (1) the child must be receiving child protective services;
- (2) the child must be in foster care; or
- (3) the child's parents must have had parental rights suspended or terminated.

Tribes may access reimbursement from available state funds for conducting the screenings. Nothing in this section shall alter responsibilities of the county for providing services under section 245.487.

(g) Participating tribes may establish a local child mortality review panel. In establishing a local child mortality review panel, the tribe agrees to conduct local child mortality reviews for child deaths or near-fatalities occurring on the reservation under subdivision 12. Tribes with established child mortality review panels shall have access to nonpublic data and shall protect nonpublic data under subdivision 12, paragraphs (c) to (e). The tribe shall provide written notice to the commissioner and affected counties when a local child mortality review panel has been established and shall provide data upon request of the commissioner for purposes of sharing nonpublic data with members of the state child mortality review panel in connection to an individual case.

(h) The commissioner shall collect information on outcomes relating to child safety, permanency, and well-being of American Indian children who are served in the projects. Participating tribes must provide information to the state in a format and completeness deemed acceptable by the state to meet state and federal reporting requirements.

(i) In consultation with the White Earth Band, the commissioner shall develop and submit to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services a plan to transfer legal responsibility for providing child protective services to White Earth Band member children residing in Hennepin County to the White Earth Band. The plan shall include a financing proposal, definitions of key terms, statutory amendments required, and other provisions required to implement the plan. The commissioner shall submit the plan by January 15, 2012.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2020, section 256.0112, subdivision 6, is amended to read:

Subd. 6. **Contracting within and across county lines; lead county contracts; lead tribal contracts.** Paragraphs (a) to (e) govern contracting within and across county lines and lead county contracts. Paragraphs (a) to (e) govern contracting within and across reservation boundaries and lead tribal contracts for initiative tribes under section 256.01, subdivision 14b. For purposes of this subdivision, "local agency" includes a tribe or a county agency.

(a) Once a local agency and an approved vendor execute a contract that meets the requirements of this subdivision, the contract governs all other purchases of service from the vendor by all other local agencies for the term of the contract. The local agency that negotiated and entered into the contract becomes the lead tribe or county for the contract.

(b) When the local agency in the county or reservation where a vendor is located wants to purchase services from that vendor and the vendor has no contract with the local agency or any other tribe or county, the local agency must negotiate and execute a contract with the vendor.

(c) When a local agency ~~in one county~~ wants to purchase services from a vendor located in another county or reservation, it must notify the local agency in the county or reservation where the vendor is located. Within 30 days of being notified, the local agency in the vendor's county or reservation must:

(1) if it has a contract with the vendor, send a copy to the inquiring local agency;

(2) if there is a contract with the vendor for which another local agency is the lead tribe or county, identify the lead tribe or county to the inquiring agency; or

(3) if no local agency has a contract with the vendor, inform the inquiring agency whether it will negotiate a contract and become the lead tribe or county. If the agency where the vendor is located will not negotiate a contract with the vendor because of concerns related to clients' health and safety, the agency must share those concerns with the inquiring local agency.

(d) If the local agency in the county where the vendor is located declines to negotiate a contract with the vendor or fails to respond within 30 days of receiving the notification under paragraph (c), the inquiring agency is authorized to negotiate a contract and must notify the local agency that declined or failed to respond.

(e) When the inquiring ~~county~~ local agency under paragraph (d) becomes the lead tribe or county for a contract and the contract expires and needs to be renegotiated, that tribe or county must again follow the requirements under paragraph (c) and notify the local agency where the vendor is located. The local agency where the vendor is located has the option of becoming the lead tribe or county for the new contract. If the local agency does not exercise the option, paragraph (d) applies.

(f) This subdivision does not affect the requirement to seek county concurrence under section 256B.092, subdivision 8a, when the services are to be purchased for a person with a developmental disability or under section 245.4711, subdivision 3, when the services to be purchased are for an adult with serious and persistent mental illness.

Subd. 7a. **Assertive community treatment team staff requirements and roles.** (a) The required treatment staff qualifications and roles for an ACT team are:

(1) the team leader:

(i) shall be a licensed mental health professional who is qualified under Minnesota Rules, part 9505.0371, subpart 5, item A. Individuals who are not licensed but who are eligible for licensure and are otherwise qualified may also fulfill this role but must obtain full licensure within 24 months of assuming the role of team leader;

(ii) must be an active member of the ACT team and provide some direct services to clients;

(iii) must be a single full-time staff member, dedicated to the ACT team, who is responsible for overseeing the administrative operations of the team, providing clinical oversight of services in conjunction with the psychiatrist or psychiatric care provider, and supervising team members to ensure delivery of best and ethical practices; and

(iv) must be available to provide overall clinical oversight to the ACT team after regular business hours and on weekends and holidays. The team leader may delegate this duty to another qualified member of the ACT team;

(2) the psychiatric care provider:

(i) must be a licensed psychiatrist certified by the American Board of Psychiatry and Neurology or eligible for board certification or certified by the American Osteopathic Board of Neurology and Psychiatry or eligible for board certification, or a psychiatric nurse who is qualified under Minnesota

Rules, part 9505.0371, subpart 5, item A. The psychiatric care provider must have demonstrated clinical experience working with individuals with serious and persistent mental illness;

(ii) shall collaborate with the team leader in sharing overall clinical responsibility for screening and admitting clients; monitoring clients' treatment and team member service delivery; educating staff on psychiatric and nonpsychiatric medications, their side effects, and health-related conditions; actively collaborating with nurses; and helping provide clinical supervision to the team;

(iii) shall fulfill the following functions for assertive community treatment clients: provide assessment and treatment of clients' symptoms and response to medications, including side effects; provide brief therapy to clients; provide diagnostic and medication education to clients, with medication decisions based on shared decision making; monitor clients' nonpsychiatric medical conditions and nonpsychiatric medications; and conduct home and community visits;

(iv) shall serve as the point of contact for psychiatric treatment if a client is hospitalized for mental health treatment and shall communicate directly with the client's inpatient psychiatric care providers to ensure continuity of care;

(v) shall have a minimum full-time equivalency that is prorated at a rate of 16 hours per 50 clients. Part-time psychiatric care providers shall have designated hours to work on the team, with sufficient blocks of time on consistent days to carry out the provider's clinical, supervisory, and administrative responsibilities. No more than two psychiatric care providers may share this role;

(vi) may ~~not provide specific roles and responsibilities by telemedicine unless approved by the commissioner~~ services through telehealth as defined under section 256B.0625, subdivision 3b, when necessary to ensure the continuation of psychiatric and medication services availability for clients and to maintain statutory requirements for psychiatric care provider staffing levels; and

(vii) shall provide psychiatric backup to the program after regular business hours and on weekends and holidays. The psychiatric care provider may delegate this duty to another qualified psychiatric provider;

(3) the nursing staff:

(i) shall consist of one to three registered nurses or advanced practice registered nurses, of whom at least one has a minimum of one-year experience working with adults with serious mental illness and a working knowledge of psychiatric medications. No more than two individuals can share a full-time equivalent position;

(ii) are responsible for managing medication, administering and documenting medication treatment, and managing a secure medication room; and

(iii) shall develop strategies, in collaboration with clients, to maximize taking medications as prescribed; screen and monitor clients' mental and physical health conditions and medication side effects; engage in health promotion, prevention, and education activities; communicate and coordinate services with other medical providers; facilitate the development of the individual treatment plan for clients assigned; and educate the ACT team in monitoring psychiatric and physical health symptoms and medication side effects;

(4) the co-occurring disorder specialist:

(i) shall be a full-time equivalent co-occurring disorder specialist who has received specific training on co-occurring disorders that is consistent with national evidence-based practices. The training must include practical knowledge of common substances and how they affect mental illnesses, the ability to assess substance use disorders and the client's stage of treatment, motivational interviewing, and skills necessary to provide counseling to clients at all different stages of change and treatment. The co-occurring disorder specialist may also be an individual who is a licensed alcohol and drug counselor as described in section 148F.01, subdivision 5, or a counselor who otherwise meets the training, experience, and other requirements in section 245G.11, subdivision 5. No more than two co-occurring disorder specialists may occupy this role; and

(ii) shall provide or facilitate the provision of co-occurring disorder treatment to clients. The co-occurring disorder specialist shall serve as a consultant and educator to fellow ACT team members on co-occurring disorders;

(5) the vocational specialist:

(i) shall be a full-time vocational specialist who has at least one-year experience providing employment services or advanced education that involved field training in vocational services to individuals with mental illness. An individual who does not meet these qualifications may also serve as the vocational specialist upon completing a training plan approved by the commissioner;

(ii) shall provide or facilitate the provision of vocational services to clients. The vocational specialist serves as a consultant and educator to fellow ACT team members on these services; and

(iii) should not refer individuals to receive any type of vocational services or linkage by providers outside of the ACT team;

(6) the mental health certified peer specialist:

(i) shall be a full-time equivalent mental health certified peer specialist as defined in section 256B.0615. No more than two individuals can share this position. The mental health certified peer specialist is a fully integrated team member who provides highly individualized services in the community and promotes the self-determination and shared decision-making abilities of clients. This requirement may be waived due to workforce shortages upon approval of the commissioner;

(ii) must provide coaching, mentoring, and consultation to the clients to promote recovery, self-advocacy, and self-direction, promote wellness management strategies, and assist clients in developing advance directives; and

(iii) must model recovery values, attitudes, beliefs, and personal action to encourage wellness and resilience, provide consultation to team members, promote a culture where the clients' points of view and preferences are recognized, understood, respected, and integrated into treatment, and serve in a manner equivalent to other team members;

(7) the program administrative assistant shall be a full-time office-based program administrative assistant position assigned to solely work with the ACT team, providing a range of supports to the team, clients, and families; and

(8) additional staff:

(i) shall be based on team size. Additional treatment team staff may include licensed mental health professionals as defined in Minnesota Rules, part 9505.0371, subpart 5, item A; mental health practitioners as defined in section 245.462, subdivision 17; a mental health practitioner working as a clinical trainee according to Minnesota Rules, part 9505.0371, subpart 5, item C; or mental health rehabilitation workers as defined in section 256B.0623, subdivision 5, paragraph (a), clause (4). These individuals shall have the knowledge, skills, and abilities required by the population served to carry out rehabilitation and support functions; and

(ii) shall be selected based on specific program needs or the population served.

(b) Each ACT team must clearly document schedules for all ACT team members.

(c) Each ACT team member must serve as a primary team member for clients assigned by the team leader and are responsible for facilitating the individual treatment plan process for those clients. The primary team member for a client is the responsible team member knowledgeable about the client's life and circumstances and writes the individual treatment plan. The primary team member provides individual supportive therapy or counseling, and provides primary support and education to the client's family and support system.

(d) Members of the ACT team must have strong clinical skills, professional qualifications, experience, and competency to provide a full breadth of rehabilitation services. Each staff member shall be proficient in their respective discipline and be able to work collaboratively as a member of a multidisciplinary team to deliver the majority of the treatment, rehabilitation, and support services clients require to fully benefit from receiving assertive community treatment.

(e) Each ACT team member must fulfill training requirements established by the commissioner."

"Sec. 19. Minnesota Statutes 2020, section 256B.0943, subdivision 1, is amended to read:

Subdivision 1. **Definitions.** For purposes of this section, the following terms have the meanings given them.

(a) "Children's therapeutic services and supports" means the flexible package of mental health services for children who require varying therapeutic and rehabilitative levels of intervention to treat a diagnosed emotional disturbance, as defined in section 245.4871, subdivision 15, or a diagnosed mental illness, as defined in section 245.462, subdivision 20. The services are time-limited interventions that are delivered using various treatment modalities and combinations of services designed to reach treatment outcomes identified in the individual treatment plan.

(b) "Clinical supervision" means the overall responsibility of the mental health professional for the control and direction of individualized treatment planning, service delivery, and treatment review for each client. A mental health professional who is an enrolled Minnesota health care program provider accepts full professional responsibility for a supervisee's actions and decisions, instructs the supervisee in the supervisee's work, and oversees or directs the supervisee's work.

(c) "Clinical trainee" means a mental health practitioner who meets the qualifications specified in Minnesota Rules, part 9505.0371, subpart 5, item C.

(d) "Crisis assistance" has the meaning given in section 245.4871, subdivision 9a. Crisis assistance entails the development of a written plan to assist a child's family to contend with a potential crisis and is distinct from the immediate provision of crisis intervention services.

(e) "Culturally competent provider" means a provider who understands and can utilize to a client's benefit the client's culture when providing services to the client. A provider may be culturally competent because the provider is of the same cultural or ethnic group as the client or the provider has developed the knowledge and skills through training and experience to provide services to culturally diverse clients.

(f) "Day treatment program" for children means a site-based structured mental health program consisting of psychotherapy for three or more individuals and individual or group skills training provided by a multidisciplinary team, under the clinical supervision of a mental health professional.

(g) "Diagnostic assessment" has the meaning given in Minnesota Rules, part 9505.0372, subpart 1.

(h) "Direct service time" means the time that a mental health professional, clinical trainee, mental health practitioner, or mental health behavioral aide spends face-to-face with a client and the client's family or providing covered ~~telemedicine~~ services through telehealth as defined under section 256B.0625, subdivision 3b. Direct service time includes time in which the provider obtains a client's history, develops a client's treatment plan, records individual treatment outcomes, or provides service components of children's therapeutic services and supports. Direct service time does not include time doing work before and after providing direct services, including scheduling or maintaining clinical records.

(i) "Direction of mental health behavioral aide" means the activities of a mental health professional or mental health practitioner in guiding the mental health behavioral aide in providing services to a client. The direction of a mental health behavioral aide must be based on the client's individualized treatment plan and meet the requirements in subdivision 6, paragraph (b), clause (5).

(j) "Emotional disturbance" has the meaning given in section 245.4871, subdivision 15.

(k) "Individual behavioral plan" means a plan of intervention, treatment, and services for a child written by a mental health professional or mental health practitioner, under the clinical supervision of a mental health professional, to guide the work of the mental health behavioral aide. The individual behavioral plan may be incorporated into the child's individual treatment plan so long as the behavioral plan is separately communicable to the mental health behavioral aide.

(l) "Individual treatment plan" has the meaning given in Minnesota Rules, part 9505.0371, subpart 7.

(m) "Mental health behavioral aide services" means medically necessary one-on-one activities performed by a trained paraprofessional qualified as provided in subdivision 7, paragraph (b), clause (3), to assist a child retain or generalize psychosocial skills as previously trained by a mental health professional or mental health practitioner and as described in the child's individual treatment plan and individual behavior plan. Activities involve working directly with the child or child's family as provided in subdivision 9, paragraph (b), clause (4).

(n) "Mental health practitioner" has the meaning given in section 245.462, subdivision 17, except that a practitioner working in a day treatment setting may qualify as a mental health practitioner if the practitioner holds a bachelor's degree in one of the behavioral sciences or related fields from an accredited college or university, and: (1) has at least 2,000 hours of clinically supervised experience in the delivery of mental health services to clients with mental illness; (2) is fluent in the language, other than English, of the cultural group that makes up at least 50 percent of the practitioner's clients, completes 40 hours of training on the delivery of services to clients with mental illness, and receives clinical supervision from a mental health professional at least once per week until meeting the required 2,000 hours of supervised experience; or (3) receives 40 hours of training on the delivery of services to clients with mental illness within six months of employment, and clinical supervision from a mental health professional at least once per week until meeting the required 2,000 hours of supervised experience.

(o) "Mental health professional" means an individual as defined in Minnesota Rules, part 9505.0370, subpart 18.

(p) "Mental health service plan development" includes:

(1) the development, review, and revision of a child's individual treatment plan, as provided in Minnesota Rules, part 9505.0371, subpart 7, including involvement of the client or client's parents, primary caregiver, or other person authorized to consent to mental health services for the client, and including arrangement of treatment and support activities specified in the individual treatment plan; and

(2) administering standardized outcome measurement instruments, determined and updated by the commissioner, as periodically needed to evaluate the effectiveness of treatment for children receiving clinical services and reporting outcome measures, as required by the commissioner.

(q) "Mental illness," for persons at least age 18 but under age 21, has the meaning given in section 245.462, subdivision 20, paragraph (a).

(r) "Psychotherapy" means the treatment of mental or emotional disorders or maladjustment by psychological means. Psychotherapy may be provided in many modalities in accordance with Minnesota Rules, part 9505.0372, subpart 6, including patient and/or family psychotherapy; family psychotherapy; psychotherapy for crisis; group psychotherapy; or multiple-family psychotherapy. Beginning with the American Medical Association's Current Procedural Terminology, standard edition, 2014, the procedure "individual psychotherapy" is replaced with "patient and/or family psychotherapy," a substantive change that permits the therapist to work with the client's family without the client present to obtain information about the client or to explain the client's treatment plan to the family. Psychotherapy is appropriate for crisis response when a child has become dysregulated or experienced new trauma since the diagnostic assessment was completed and needs psychotherapy to address issues not currently included in the child's individual treatment plan.

(s) "Rehabilitative services" or "psychiatric rehabilitation services" means a series or multidisciplinary combination of psychiatric and psychosocial interventions to: (1) restore a child or adolescent to an age-appropriate developmental trajectory that had been disrupted by a psychiatric illness; or (2) enable the child to self-monitor, compensate for, cope with, counteract, or replace psychosocial skills deficits or maladaptive skills acquired over the course of a psychiatric illness.

Psychiatric rehabilitation services for children combine psychotherapy to address internal psychological, emotional, and intellectual processing deficits, and skills training to restore personal and social functioning. Psychiatric rehabilitation services establish a progressive series of goals with each achievement building upon a prior achievement. Continuing progress toward goals is expected, and rehabilitative potential ceases when successive improvement is not observable over a period of time.

(t) "Skills training" means individual, family, or group training, delivered by or under the supervision of a mental health professional, designed to facilitate the acquisition of psychosocial skills that are medically necessary to rehabilitate the child to an age-appropriate developmental trajectory heretofore disrupted by a psychiatric illness or to enable the child to self-monitor, compensate for, cope with, counteract, or replace skills deficits or maladaptive skills acquired over the course of a psychiatric illness. Skills training is subject to the service delivery requirements under subdivision 9, paragraph (b), clause (2).

Sec. 20. Minnesota Statutes 2020, section 256B.0947, subdivision 6, is amended to read:

Subd. 6. **Service standards.** The standards in this subdivision apply to intensive nonresidential rehabilitative mental health services.

- (a) The treatment team must use team treatment, not an individual treatment model.
- (b) Services must be available at times that meet client needs.
- (c) Services must be age-appropriate and meet the specific needs of the client.
- (d) The initial functional assessment must be completed within ten days of intake and updated at least every six months or prior to discharge from the service, whichever comes first.
- (e) An individual treatment plan must:
 - (1) be based on the information in the client's diagnostic assessment and baselines;
 - (2) identify goals and objectives of treatment, a treatment strategy, a schedule for accomplishing treatment goals and objectives, and the individuals responsible for providing treatment services and supports;
 - (3) be developed after completion of the client's diagnostic assessment by a mental health professional or clinical trainee and before the provision of children's therapeutic services and supports;
 - (4) be developed through a child-centered, family-driven, culturally appropriate planning process, including allowing parents and guardians to observe or participate in individual and family treatment services, assessments, and treatment planning;
 - (5) be reviewed at least once every six months and revised to document treatment progress on each treatment objective and next goals or, if progress is not documented, to document changes in treatment;
 - (6) be signed by the clinical supervisor and by the client or by the client's parent or other person authorized by statute to consent to mental health services for the client. A client's parent may approve

the client's individual treatment plan by secure electronic signature or by documented oral approval that is later verified by written signature;

(7) be completed in consultation with the client's current therapist and key providers and provide for ongoing consultation with the client's current therapist to ensure therapeutic continuity and to facilitate the client's return to the community. For clients under the age of 18, the treatment team must consult with parents and guardians in developing the treatment plan;

(8) if a need for substance use disorder treatment is indicated by validated assessment:

(i) identify goals, objectives, and strategies of substance use disorder treatment; develop a schedule for accomplishing treatment goals and objectives; and identify the individuals responsible for providing treatment services and supports;

(ii) be reviewed at least once every 90 days and revised, if necessary;

(9) be signed by the clinical supervisor and by the client and, if the client is a minor, by the client's parent or other person authorized by statute to consent to mental health treatment and substance use disorder treatment for the client; and

(10) provide for the client's transition out of intensive nonresidential rehabilitative mental health services by defining the team's actions to assist the client and subsequent providers in the transition to less intensive or "stepped down" services.

(f) The treatment team shall actively and assertively engage the client's family members and significant others by establishing communication and collaboration with the family and significant others and educating the family and significant others about the client's mental illness, symptom management, and the family's role in treatment, unless the team knows or has reason to suspect that the client has suffered or faces a threat of suffering any physical or mental injury, abuse, or neglect from a family member or significant other.

(g) For a client age 18 or older, the treatment team may disclose to a family member, other relative, or a close personal friend of the client, or other person identified by the client, the protected health information directly relevant to such person's involvement with the client's care, as provided in Code of Federal Regulations, title 45, part 164.502(b). If the client is present, the treatment team shall obtain the client's agreement, provide the client with an opportunity to object, or reasonably infer from the circumstances, based on the exercise of professional judgment, that the client does not object. If the client is not present or is unable, by incapacity or emergency circumstances, to agree or object, the treatment team may, in the exercise of professional judgment, determine whether the disclosure is in the best interests of the client and, if so, disclose only the protected health information that is directly relevant to the family member's, relative's, friend's, or client-identified person's involvement with the client's health care. The client may orally agree or object to the disclosure and may prohibit or restrict disclosure to specific individuals.

(h) The treatment team shall provide interventions to promote positive interpersonal relationships.

(i) The services and responsibilities of the psychiatric provider may be provided through telehealth as defined under section 256B.0625, subdivision 3b, when necessary to prevent disruption in client services or to maintain the required psychiatric staffing level.

Sec. 21. Minnesota Statutes 2020, section 256B.0949, subdivision 13, is amended to read:

Subd. 13. **Covered services.** (a) The services described in paragraphs (b) to (l) are eligible for reimbursement by medical assistance under this section. Services must be provided by a qualified EIDBI provider and supervised by a QSP. An EIDBI service must address the person's medically necessary treatment goals and must be targeted to develop, enhance, or maintain the individual developmental skills of a person with ASD or a related condition to improve functional communication, including nonverbal or social communication, social or interpersonal interaction, restrictive or repetitive behaviors, hyperreactivity or hyporeactivity to sensory input, behavioral challenges and self-regulation, cognition, learning and play, self-care, and safety.

(b) EIDBI treatment must be delivered consistent with the standards of an approved modality, as published by the commissioner. EIDBI modalities include:

- (1) applied behavior analysis (ABA);
- (2) developmental individual-difference relationship-based model (DIR/Floortime);
- (3) early start Denver model (ESDM);
- (4) PLAY project;
- (5) relationship development intervention (RDI); or
- (6) additional modalities not listed in clauses (1) to (5) upon approval by the commissioner.

(c) An EIDBI provider may use one or more of the EIDBI modalities in paragraph (b), clauses (1) to (5), as the primary modality for treatment as a covered service, or several EIDBI modalities in combination as the primary modality of treatment, as approved by the commissioner. An EIDBI provider that identifies and provides assurance of qualifications for a single specific treatment modality must document the required qualifications to meet fidelity to the specific model.

(d) Each qualified EIDBI provider must identify and provide assurance of qualifications for professional licensure certification, or training in evidence-based treatment methods, and must document the required qualifications outlined in subdivision 15 in a manner determined by the commissioner.

(e) CMDE is a comprehensive evaluation of the person's developmental status to determine medical necessity for EIDBI services and meets the requirements of subdivision 5. The services must be provided by a qualified CMDE provider.

(f) EIDBI intervention observation and direction is the clinical direction and oversight of EIDBI services by the QSP, level I treatment provider, or level II treatment provider, including developmental and behavioral techniques, progress measurement, data collection, function of behaviors, and generalization of acquired skills for the direct benefit of a person. EIDBI intervention observation and direction informs any modification of the current treatment protocol to support the outcomes outlined in the ITP.

(g) Intervention is medically necessary direct treatment provided to a person with ASD or a related condition as outlined in their ITP. All intervention services must be provided under the

direction of a QSP. Intervention may take place across multiple settings. The frequency and intensity of intervention services are provided based on the number of treatment goals, person and family or caregiver preferences, and other factors. Intervention services may be provided individually or in a group. Intervention with a higher provider ratio may occur when deemed medically necessary through the person's ITP.

(1) Individual intervention is treatment by protocol administered by a single qualified EIDBI provider delivered ~~face-to-face~~ to one person.

(2) Group intervention is treatment by protocol provided by one or more qualified EIDBI providers, delivered to at least two people who receive EIDBI services.

(h) ITP development and ITP progress monitoring is development of the initial, annual, and progress monitoring of an ITP. ITP development and ITP progress monitoring documents provide oversight and ongoing evaluation of a person's treatment and progress on targeted goals and objectives and integrate and coordinate the person's and the person's legal representative's information from the CMDE and ITP progress monitoring. This service must be reviewed and completed by the QSP, and may include input from a level I provider or a level II provider.

(i) Family caregiver training and counseling is specialized training and education for a family or primary caregiver to understand the person's developmental status and help with the person's needs and development. This service must be provided by the QSP, level I provider, or level II provider.

(j) A coordinated care conference is a voluntary ~~face-to-face~~ meeting with the person and the person's family to review the CMDE or ITP progress monitoring and to integrate and coordinate services across providers and service-delivery systems to develop the ITP. This service must be provided by the QSP and may include the CMDE provider or a level I provider or a level II provider.

(k) Travel time is allowable billing for traveling to and from the person's home, school, a community setting, or place of service outside of an EIDBI center, clinic, or office from a specified location to provide ~~face-to-face~~ in-person EIDBI intervention, observation and direction, or family caregiver training and counseling. The person's ITP must specify the reasons the provider must travel to the person.

(l) Medical assistance covers medically necessary EIDBI services and consultations delivered by a licensed health care provider via ~~telemedicine~~ telehealth, as defined under section 256B.0625, subdivision 3b, in the same manner as if the service or consultation was delivered in person."

Subd. 2a. **Salary and benefits survey.** (a) By January 1 of 2021, ~~2023, 2027~~ 2024, 2027, and ~~2031~~ 2030, the legislative auditor must conduct a compensation and benefit survey of law enforcement officers in every police department:

(1) in a city with a population in excess of 25,000, located in a metropolitan county, as defined in section 473.121, subdivision 4, that is represented by a union certified by the Bureau of Mediation Services; or

(2) in a city of the first class.

The State Patrol must also be included in the survey.

(b) The legislative auditor must base the survey on compensation and benefits for the past completed calendar year. The survey must be based on full-time equivalent employees. The legislative auditor must calculate compensation using base salary, overtime wages, and premium pay. Premium pay is payment that is received by a majority of employees and includes but is not limited to education pay and longevity pay. The legislative auditor must not include any payments made to officers or troopers for work performed for an entity other than the agency that employs the officer or trooper, regardless of who makes the payment. The legislative auditor must also include in the survey all benefits, including insurance, retirement, and pension benefits. The legislative auditor must include contributions from both the employee and employer when determining benefits.

(c) The legislative auditor must compile the survey results into a report. The report must show each department separately. For each department, the survey must include:

(1) an explanation of the salary structure, and include minimum and maximum salaries for each range or step; and

(2) an explanation of benefits offered, including the options that are offered and the employee and employer contribution for each option.

Wherever possible, the report must be designed so that the data for each department is in the same table or grid format to facilitate easy comparison.

(d) By January 15 of 2021, 2023, 2027, and 2031, the legislative auditor must transmit the survey report to the chairs and ranking minority members of the house of representatives and senate committees with jurisdiction over the State Patrol budget.

(e) It is the legislature's intent to use the information in this study to compare salaries between the identified police departments and the State Patrol and to make appropriate increases to patrol trooper salaries. For purposes of this paragraph, "patrol troopers" has the meaning given in subdivision 2, paragraph (a)."
